REAL FACES · SOFT LIGHT · CONTENT · THAT FEELS LIKE TASTE

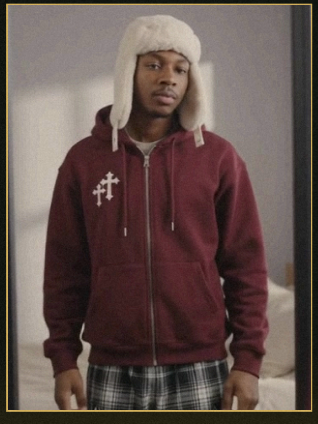

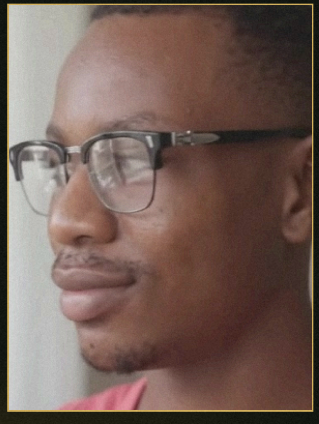

Taste, light, *honest product*

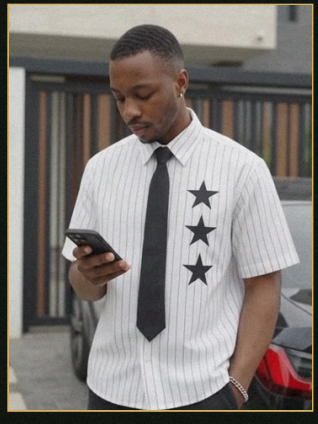

I make short-form content that feels like a friend showing you something they actually use: a skincare routine in a bright bathroom, a hoodie styled three ways, a tray of frames tried on one by one. I care about light, framing and pacing, and I keep the product honest and central. My work lives across skincare, fashion and accessories, fragrance and grooming, everyday routines and consumer tech, built for TikTok and Instagram Reels.

A versatile creator, not a celebrity influencer: the value is in the quality and usefulness of the content made for your brand.
